STUDENT TESTIMONIALS

Thank you so much Shawn for teaching, guiding and encouraging us, and helping to create community between us. What an amazing experience. I hope to take classes with you again! —AR

I feel very strongly that the synergy we experienced in Shawn's class allowed me to dig deeper and create better work. That is the best kind of class to be in, where we learned so much not only from Shawn (who is awesome) but also from each other. A great experience all the way around! —KJ

Thanks for your weekly emails...it is so good to be in a class with a teacher who really cares and is enormously helpful, and yet low key and respectful of us. Thanks so much. It was indeed a great class. —JG

Thank you so much for such a great experience, Shawn! I learned so much and look forward to staying connected. —FR

It was indeed a great class...and our assemblage endeavors are fascinating...deep deep deep. Thanks to all and especially Shawn. —MG

I don't think I would have finished this class with any teacher other than Shawn. And having all of you generous, insightful women giving your commentary and feedback was a very positive experience. I'm proud of myself for going through the process and grateful to all of you for sharing the experience. —MM

I want to thank you for taking us on a little journey these past 10 weeks. I made myself crazy, but I see myself revisiting each project. —MW

Shawn provided information which is not available in texts. Her expertise with choice of materials and methods for fastening/attaching/permanently joining these often unorthodox materials is invaluable. Her aesthetic is open, yet sophisticated. Her class is a great way to recapture the creative spark through a myriad of 2D and 3D assemblage. She is a delightful, generous, sensitive and energetic teacher with much to share! —SM

Thanks, Shawn! So glad you are teaching this class. You're teaching us so much...it's terrific – and so are you! —CM

You have been a wonderful teacher with great insight, experience and instruction. —LG

Thanks so much Shawn for being such a great teacher and facilitator of our art making! This is a wonderful class! I love the pace – fast, and yet we'll be able to come out with some cool projects, lots of tools and resources, and inspiration! —AR

Thanks Shawn, I appreciate all the great info! I'm all inspired... —KJ

Looking forward to next term! —VB
